TROOPS PATROL CITY

Springfield Has Entered Second Stage of Riot History.

NATIONAL GUARD IN CONTROL

City of Illinois Steeped in Sorrow—Known List of Dead Five—2,000 Negroes Have Left City.

Springfield, Ill., Aug. 18.—The war which began here last Friday night is believed to be a thing of the past. Sunday night passed without untoward incident and it was confidently asserted by those in charge of the situation that no mob of any size will form from now on. Cases of disorderly conduct and probably will claim the attention of the militia, but it is not expected that the troops will be required by any serious task. Springfield has entered upon the second stage of riot history—the investigation of outrages and the arrest of the guilty. A special grand jury was summoned by Judge James Breighton of the Sangamon county at the result of a conference between Governor Deneen and Attorney Hatch. Both of these officials were of the strong opinion that this step should be taken.

Grand Jury in Session.

The grand jury will be held in session so long as the mob violence is continued.

Confidence of General Young in his force is sufficient to retire from any attempt at mob violence. The force is shared by the negroes. Many of them from the residence section of the city came to the arsenal during the number now being sheltered by the state to 400. None of them have left the place since they were arrested. It is feared that their very presence would incite a riot and they are guarded as closely as is the situation kept in the building.

It is estimated that 1,500 negroes have left the city since Friday. When nearly the entire force of the national guard in control, Springfield again is ruled by law and order. Fifty-five hundred armed soldiers patrol the streets and the fever blood has abated, temporarily at least, among the wild element, which has been the state capital for forty-eight years.

An attempt was made to cut fire and telegraph wires in the business district. With wires down the city would have practically at the mercy of the rioters, who found firing the negro houses the easiest way of starting the rioting going.

Attempt to Cut Wires

A man who would have cut off the protection of the city was discovered on the roof of a building in the act of reaching for the wires. A shot from the troops was fired at him as he stealthily climbed the wires. One bullet penetrated his back, for he dropped to the ground and made his escape from the building and made his escape.

This affair is added the attempt to cut the wires on the north side of Springfield. Prompt action of the fire department cooperated with a battalion of the First Infantry stopped the impending conflagration.

Throughout the night headquarters of the two brigades had frequent calls from frightened citizens, who requested protection from suspicious characters.

Known Dead Is Five.

With the death Sunday of William D. Morgan, the aged negro who was shot Saturday night and Dillmore, a white man, who was shot while trying to stop the rioting, the list of those dead was increased to five. Springfield is steeped in the deep sorrow. The capital of Illinois is truly realizing the sad consequences of her state, but she has determined to take the most vigorous steps to reassert justice and order.

A careful estimate places the number of negroes who have left Springfield since the beginning of the race war at 2,000.

Says He Is Going Insane.

Peoria, Ill., Aug. 18.—"I am one of those who helped to lynch William Donnegan at Springfield, and I believe I am going insane," was the statement of Chas. Gadwin at the office of the superintendent of the Bartonville asylum Sunday night. "We stamped him in the face; we cut his throat; and then put a rope around his neck. That's what it took to kill him." Gadwin said that he was formerly a member of the 32nd U. S. volunteers in the Philippines and had a sister at the asylum. He was placed under guard.

CORPSE FOUND IN TRUNK.

Wound in Man's Breast—Body Found by Picnickers.

Camden, N. J., Aug. 18.—The finding of the body of a man in an old trunk concealed in a ravine six miles outside this city Sunday has given the authorities one of the most mysterious crimes to solve ever reported here.

A party of picnickers, while seeking water in a ravine, came across an old traveling trunk, tied with rope and half buried in the undergrowth. Charles Meyers and D. Arrow, who found the trunk, cut the ropes and, on raising the lid, found the body of a man in the trunk. Over the features was a Philadelphia newspaper of November 19, 1907.

The man, as near as can be ascertained, was about 35 years of age. He had a dark mustache and hair, and was about five feet eleven inches tall. Around the neck was tied an old shirt of buff color.

Constable William Crawford and Coroner Fithian, of Camden in a superficial examination, determined from a wound in the breast that the man had been shot and the body forced into the trunk before rigor mortis had set in.

PENSACOLA IS QUIET.

For the First Time Since the Assault on Mrs. McClair.

Pensacola, Fla., Aug. 18.—Quiet prevailed in Pensacola Sunday for the first time since last Thursday when a negro committed an assault upon Mrs. Edward McClair. This was due to the fact that Sheriff Van Pelt had made the statement that he man he had under arrest was the right man and that he would be brought to Pensacola for identification.

The excitement ceased, but preparations are being made to take the prisoner from the officers should he be identified.

The sheriff declares that he will not give up his man without a fight.

Three Girls Drown While Bathing.

Grand Isle, Vt., Aug. 18.—Three young women who were staying near Adams' Landing, were drowned while bathing in Lake Champlain. They were Miss Lucy Perry and Miss Disaway, both of Plattsburg, N. Y., and Miss Elizabeth Oisaway, of Brooklyn, N. Y., a cousin of Sarah Disaway. The young women were in the water together when one of them stepped into a deep hole. The other two started to her assistance, but also stepped into deep water and all went down. The bodies were recovered.

Drowned by Overturning Boat.

New York, Aug. 18.—The overturning of a small rowboat off Ellis Island caused the death by drowning of John Boyd, 22 years of age, of Fall River, Mass., and John Starboro, of the same age, of this city. The Sunday list of deaths by drowning was further increased by those of Patrick Somer, captain of a canal barge in the East river, and John Gilson, of Newark, while bathing at Belmar, N. J.

Women Drowned in Clatsop.

Pocatowas, Ark., Aug. 18.—Jumping or falling into a stream full of water, Mrs. B. N. Dial, wife of a well-known optician here, and one of the most prominent women of this place, has met death by drowning.

STEAMER BLOWS UP

The Vessel Was a Resorting Boat Plying Carp Lake.

THREE KNOWN TO BE DEAD

Only Body Identified, So Far, Is That of Woman of Traverse City, Mich.

A Dozen or More Missing and Are Supposed to Be Dying.

Grand Rapids, Mich., Aug. 18.—A dispatch from Petoskey says:

The resorting steamer Leelanau was blown up in Carp lake Monday morning with a loss of eleven lives.

There are three known to be dead, a dozen or more are missing and supposed to be dying, two are fatally injured, and many were seriously hurt.

The only identified dead body is that of Mrs. Isabel Labinta, Traverse City, Mich.

Mrs. Ralph Hastings and A. B. Cook, both of Traverse City, are fatally injured.

HAINS BROTHERS ARRAIGNED.

In Court the Two Men Showed Little Concern.

New York, Aug. 18.—Captain Peter C. Hains, Jr., U. S. A., who shot and killed William E. Annis on Saturday at the Bayside Yacht Club, was arraigned in the first district court in Long Island City before Magistrate Matthew J. Smith. Arraigned with the captain was his brother, T. Jenkins Hains, who kept back the crowd with a revolver while his brother carried out his vengeance on the man who, he asserted, had ruined his home.

The two men were immediately taken from the Flushing police station to Long Island City. In court the brothers showed little concern. As counsel for the men had not arrived, the hearing was postponed, and in the meantime the Hains brothers are being kept in the Queens county jail. T. Jenkins Hains, who was first held on a charge of attempted felony with assault was later charged with being an accessory to the killing of Annis.

The body of William Annis was removed to his former home in Manhattan. Mrs. Annis was completely prostrated by the killing of her husband and is under the constant care of physicians.

BIG REUNION HELD.

Descendants of Rev. Sam Jones Honored in Memory.

Cartersville, Ga., Aug. 18.—Sunday morning August 16, was the occasion of the reunion of the descendants of the late Rev. Samuel G. Jones, and it is estimated that four hundred of the direct descendants and connections of the famous old preacher were present to honor his memory.

Four generations of Samuel G. Jones' family have preached in the little chapel.

The little church was also the scene of the conversion of Sam. P. Jones, the noted evangelist.

The services which marked the opening of the new church Sunday morning will be continued through the week until the 23d, which was the date of Sam Jones' conversion.

Three Drowned at Niagara.

Buffalo, N. Y., Aug. 18.—Three persons were drowned in the Niagara river when a motor boat, loaded to the rails, was run down by a pleasure barge. Mrs. William Pagels, Mrs. Charlotte Mers and Raymond Pagels, a 10-year-old lad were drowned. Henry Schauss, at the wheel of the motor boat, thought he could pass under the bow of the barge. When it was too late he tried to turn and was run down.

Manager of Pony Show Murdered.

Lexington, Ky., Aug. 18.—Stephen E. Diesback, aged 35, of Watertown, Pa., manager of a pony show, was found murdered in his tent. His head and left side were crushed, and he had been shot. No clue to the perpetrator of the crime is known, but it is believed the motive for the act was robbery.

CONVICT PROBE UNDER WAY.

Committee Plans To Complete Its Work by Thursday.

Atlanta, Aug. 18.—According to plans made and subpoenas issued the legislative investigating committee probing into the convict lease system of Georgia will meet again Thursday morning and conclude the taking of the testimony.

The intention of the committee is to conclude this work by Thursday, at the latest, Wednesday, if possible, and spend the remainder of the week in making up the report.

That the report and recommendations of the committee will be made up and ready for submission to the legislature, which meets in extra session there is no doubt.

On Friday of the past week all testimony taken before the legislature adjourned amounted to 1,500 sheets of typewritten paper. It is stated that the major portion of the witnesses are subpoenaed for the purpose of rebutting certain testimony already adduced to the effect that inhuman cruelty was visited upon the convicts when they were being whipped for punishment.

That this legislation will mean immediate abolition of the lease system, followed by a constitutional amendment to this effect, there is no doubt. The recommendation as to the abolition of the prison commission as it is now organized, it is thought, will be the pivoted point around which debate will turn.

FORTY-FIVE YEARS IN NAVY.

"Fighting Bob" Evans Goes on Retired List Tuesday.

Washington, Aug. 18.—With the retirement from active service next Tuesday of Rear Admiral Robley Dunglison Evans—"Fighting Bob"—the United States navy loses one of the most picturesque figures that ever trod a quarter-deck. Forty-five years have gone by since Evans as a young ensign, received his baptism of fire at Fort Fisher during the civil war. During that span of years he has served his country gallantly, well earning the reward of rest which a grateful people give.

It has been his fortune to command the greatest fleet of fighting ships ever assembled under the American flag. Moreover, he successfully piloted that fleet to the end of one of the most remarkable cruises in naval history as the culminating act of his brilliant career. Famous in war, he has become great in peace and many of his countrymen still are hopeful that congress will honor him by creating him a vice admiral, a rank second only to that of the Manila Bay hero, Admiral Dewey.

DOUBLE-SLAYER BALKED MOB.

Killed Self and Three Men as Outcome of Feud.

West Chester, Pa., Aug. 18.—Benjamin C. Gild, of Philadelphia, shot and instantly killed Benjamin De Felix, fatally wounded Pasquale De Felix, father of the murdered man, here, and then, to escape at the hands of an infuriated mob, committed suicide by shooting himself.

The sensational shooting is said to be the outgrowth of a feud that has existed between the Italians for a long time. The bad feeling was recently increased by the arrest of De Felix, the murdered man, on a charge of keeping a "speakeasy" and being identified with a plot.

De Felix was cleared of the charges at a hearing in Philadelphia, at which time he openly accused De Gild of having offered to give "black hand" agents \$75 to kill De Felix.

Remarkable Exhibition of Grit.

Chicago, Aug. 18.—A remarkable exhibition of grit and nerve was witnessed when George Nagle, 22 years of age, carrying his left arm, which had been severed by a Chicago, Milwaukee and St. Paul train, staggered up to a policeman and then fainted after telling his story. Nagle had carried the gruesome bundle of mangled flesh for two blocks in an effort to find a physician's office. He had attempted to board a passing freight train but had slipped on the wet rungs of the ladder and fallen between the tracks. He was taken to a hospital.

TWO ARE MURDERED

Mystery Shrouds Double Tragedy at Columbus, Ohio.

WOMAN FOUND IN THE STREET

Knife and Pistol Were Used to Commit Crime—Man Found Dead in Bed—Young Man Is Arrested on Suspicion.

Columbus, Ohio, Aug. 18.—Arthur Neidlander and his wife were found dead, the former in a room above his grocery store near the western corporation line, and the woman in the street adjoining the store. The man's body lay in bed. He had been shot through the left breast. There were two knife wounds in the heart.

The woman had been shot in the side. The bullet passed through both lungs. She is believed to have been shot while in the grocery store, and then to have plunged headlong through a glass door and made her way to the street, where she fell dead. She also was stabbed in the heart. There were marks on the throat to indicate that she had been choked.

Although neighbors heard a commotion in the building and heard a threat uttered in a woman's voice to kill some one, they did not enter to learn the nature of the trouble, and he tragedy was not disclosed until daylight, when the bodies were found.

The police have made one arrest, that of John Newkirk a painter who lives with his parents not far from the Neidlander grocery. He is said to have threatened to kill the pair because their dog bit his mother recently. The police say a section of a painter's ladder, found at his home, fits a section of a similar ladder found leaning against the store.

The police are by no means sure that they have solved the mystery, as Newkirk and his parents maintain that he was at home all night, and because the cash drawer of the grocery had been rifled.

It is said that Neidlander's first wife got a divorce, and he and his second wife did not live happily.

PLAYING SOLDIERS.

Twelve-Year-Old Boy Is Shot and Killed.

Chicago, Aug. 18.—While playing "soldiers and Indians" Edward Finerty, a 12-year-old boy of Gary, Ind., was shot and killed by John Gormley, a 16-year-old companion.

The boys, with a number of friends, had divided into two groups. Then Gormley, with his party, were defending the "fort" what at other times was the office of D. T. Finerty, father of the dead boy and an undertaker in Gary.

When the "Indians," under command of young Finerty, attacked the stronghold of the troops young Gormley flourished a revolver and snapped the trigger. It was not supposed that the weapon was loaded. There was a report and the Finerty boy fell with a bullet wound in the back of his head.

The Gormley boy is being held by the police until the accident is investigated by the coroner's jury.

A Mississippi Heroine.

Hattiesburg, Miss., Aug. 18.—Julia Bolton, 12-year-old daughter of H. H. Bolton, traveling freight agent of the Mobile, Jackson and Kansas City rail road, is the heroine of a swimming episode that was almost a tragedy. A party of girls went in swimming a few miles from the city, when Miss Stella Breland went under the water and failed to come up. Miss Bolton, who is an expert swimmer, dived for her companion, caught her and brought her to the surface. Miss Breland was unconscious when placed on the shore and it took time to revive her.

New Motor Cycle Record.

Columbus, Ga., Aug. 18.—N. A. Ledbetter, of this city, established a new motor cycle record between Columbus and Atlanta, having made the 120 miles in five hours.

EDWARDS IN VERY SERIOUS CONDITION

Was Thrown From Horse While Cow Hunting Monday.

CONCUSSION OF BRAIN RESULT

Remained Unconscious for Over Twenty-Four Hours, But Was Some Better Tuesday—Fall Was Forward and Struck on Head.

D. G. Edwards was the victim of a serious accident on Monday which may yet cost him his life, although strong hopes are entertained for his recovery by his attending physician.

He was running a cow when the animal he was riding stumbled and threw him forward, and he struck on his head, inflicting a severe wound and at the same time rendering him unconscious, the blow resulting in concussion of the brain.

After being assisted to his residence, which was only a short distance away, Dr. J. H. Hodges was summoned and gave the patient his every attention. Although Mr. Edwards was in a stupor for over twenty-four hours some signs of improvement were noted Tuesday morning.

He is being carefully nursed by his wife and many friends, and it is hoped that he will soon regain himself, although he is yet in a very precarious condition and it will require close attention to again bring him around.

Col. Pitts in South Dakota.

Thomas W. Pitts of Tampa, Florida, arrived in the city Wednesday evening to remain a week looking after his real estate interests in this city. Mr. Pitts was a former resident of South Dakota and lived at Wolsey in the early days. He was engaged in the lumber business and sold a portion of the lumber for the first University building and for several stores erected on Main street. Mr. Pitts owns several lots in the University addition and one on Main street.—Mitchell (S. D.) Republican.

ALACHUA GINNERIES ARE IN OPERATION

The Best Market for the Fleecy Staple in The Belt.

IS A GREAT HELP TO BUSINESS

Operators Pay Out Large Sums to Employees Weekly, and the Buyers Make Things Lively for the Merchants—Staple Now Moving.

Alachua is now possibly the busiest little city in the entire State, owing to the fact that the ginneries at that point began operations Monday.

The plants at this point operate more gins and give employment to more labor than any other point, and it will mean much for that place in a business way, as it is practically the best point in this section, although there are several other places that are prepared to handle the staple.

More cotton is sold there because they have long been noted to pay just a little more than all other points, and as a consequence farmers have been known to haul their cotton from the southern end of the county to offer it to the buyers of that place.

At all times non-resident buyers are on the grounds, and usually from a half-dozen to more are looking over what is to be offered to the trade.

SUICIDE OR MURDER?

Druggist Montgomery, of Birmingham, Found Dead in Store. Birmingham, Ala., Aug. 18.—B. H. Montgomery, a well-known druggist, was found dead in his store at Gate City. He was lying face downward in a pool of blood, and it is yet undecided whether it was a case of suicide or whether the man was murdered. He had been missing since Friday, and the store was not opened Saturday.

A family living above the store noticed strong odors coming from the room below, and this evening decided to break down the doors. Mr. Montgomery lived in Woodlawn, and his son, Jack Montgomery, is professor of chemistry in the University of Mississippi.

To Pass Upon Differences.

Birmingham, Ala., Aug. 18.—Replying to a letter inclosing a petition signed by twenty thousand names of people of Birmingham district, the officials of the United Mine Workers of America in charge of the strike in this state, have signified their willingness to allow a committee on arbitration to pass on the differences that caused the strike at the Alabama coal mines.

SEATS PUTS UP A FINE TWO-HIT GAME

Spottswood Also "To the Good" on Harling Line.

WANT HIM TO HOLD LOCALS

He Was One-Sided Until He Was Placed in the Box in Fourth Inning and the Fine Work of Locals Was Not Off.

Oak Halls, 8; Olympics, 2.

At the "push" of baseball artists together by Manager Davis is best there is in the State there is no further doubt, and that the reputation of young gentlemen coming the Olympics is among the we have tackled was fully demonstrated again yesterday afternoon at ball park.

Of course the visitors were a little on the air and things looked sad in the fourth, with one run and two on bases, when J. Spottswood placed in the box to do the hurling stunt for the visitors, and he showed his remarkable good of Monday, and the home lads held down by good support on part of the visitors.

Mitchell was again in the game yesterday, and during his five times up to the pill to the fence, but each time there was a man under it. All locals battled well—their work with timber will show them to be the batting babies. In a few words, have the champions, as we have always had, and expect to keep them. Following is the score by innings:

First Inning.

Graham walked; McLeod, running him, was caught trying to pilfer; Williamson fanned; Sheats hit to short and reached first on fumble; McLeod flew out to left. Hits 0, runs 0.

Gullett hit to McLeod, out at first; Bridges hit to Sheats who tagged him; B. Spottswood hit through third, out at first; Hendrix hit one in same place and was out at first. Hits 0, runs 0.

Second Inning.

Mitchell got rapped with the ball and was first, a moment later steals second; Denton flew out to right, Mitchell taking third on the throw-in; Watson singled through short, scoring Mitchell; Watson takes second on a passed ball; Bullock hit safe down first-base line for one base and goes second while third baseman held the ball; Miller hit an easy one to short and threw to the plate to catch Watson but was too late, Watson safe; Bullock taking third and Miller second; Graham hit to center, scoring Bullock and Miller; McLeod, running Graham, went to third on throw; McLeod tried to steal home, but Williamson popped a little one to center who made double play. Hits 2, runs 4.

McCall hit to Bullock, out; J. Spottswood

VICTORS OFF FOR FERNANDINA TRIP

Gallant Oak Halls Play the Strong Island City Boys Today.

MANY ROOTERS TO ACCOMPANY

Visitors Will Have Advantage of Taking a Dip in Old Ocean, Besides Visiting a Progressive and Up-to-Date City by the Sea.

The Oak Hall aggregation of ball players will take their departure for the Island City today, where they will contest honors with the strong bunch of "pill" artists of that city.

The boys, as they will line up for the contest, will be something as good as the famous old Oak Halls that have already captured so many honors from the people of Fernandina in a baseball way, and as the city is like Gainesville as far as baseball is concerned, it assures our citizens who accompany the boys that they will witness a contest well worthy the trip.

At one time Gainesville and Fernandina had more rivalry between them than any of the teams of the State, and it has been only a few years since this rivalry existed for the old championship bat and cup, which were both won from them when they spent thousands of dollars to protect the same.

This is one game where the locals of the bleachers can rest assured of getting some action, so accompany the boys and help them along.

left flew out to Graham; McCall flew out to Bullock. Hits 1, runs 1.

Ninth Inning.

Graham fanned, but reached first on catcher's error; Watson running for Graham; Williamson sacrificed; Sheats popped out to pitcher; McLeod singled to right, scoring Watson, and taking third himself on the throw-in to the plate, and scored on an overthrow by third baseman; Mitchell flew out to left. Hits 1, runs 2.

J. Spottswood hit to third, out at first; Coles skied out to Watson; Hendrix singled to center but was caught trying to stretch it for three bases. Hits 0, runs 0.

DIAMOND NOTES.

On to Fernandina.

...

Better bring back the bacon, boys.

...

Mitchell scored the first run. That's his habit.

...

Yes, Sandy was in the game, all the time too.

...

Bridges put up his usual good game at second.

...

Mitchell tried hard to put the leather over the fence.

...

"Blue-jeans" Williamson handles his position well.

...

A defeat on the road is mighty bitter. Let's don't have it.

...

McLeod was the hero with the willow and on the bases.

...

Bullock keeps up his good work on first. He's the man for the job.

...

Coles made a beautiful catch of Mitchell's long foul fly in the seventh inning.

...

J. Spottswood is undoubtedly the best pitcher the locals have batted against so far this season.

...

You ought to see that man McLeod run the bases. Great balls of mustard, he certainly can cover ground.

...

There is no use talkin'. Sheats' had 'em puzzled all the way through. Two hits was all they got off him.

...

Mitchell came in for his share of applause when he made a beautiful run and catch of a seemingly safe hit.

...

Watson will be on the firing line today. The lad's in good shape and will have a fine assortment of warps to fool Fernandina swatters.

EASY TO MOVE

Nothing is more exasperating to the housewife than a bed which is hard to move.

With this special thought in mind BERNSTEIN BEDS are all equipped with large-size, easy-running castors which allow the bed to be moved easily and with no danger of damage to carpets, rugs or flooring. The rollers are made of genuine lignum vitae—the hardest wood that grows—shelved and polished.

The Bernstein Attachment.

The Bernstein is the original three-piece bed. The Bernstein Attachment (covered in patents) holds the side rails or frame to the foot and head. Very simple in principle, yet holds the bed rigid and firm. Joints can not rattle or shake. Head and foot stand perfectly erect and solid. Easily and neatly detached. In half a minute the BERNSTEIN BED can be taken down without tools or hammer—just the hands alone. Any woman, any man can do it.

This is the attachment that makes a bed only practical three-piece bed made. It is a remarkable fact that a full-sized Bernstein Bed—either Enamelled or Brass—will sustain an actual weight of twenty-five ordinary persons, or nearly two tons. This extreme strength, with absolute rigidity, makes the Bernstein Bed an article of household utility that will last a lifetime—can be handed down from generation to generation.

"What Mr. Taft Thinks," is the headline on a Western newspaper editorial. Of course it meant "What Mr. Taft says," which is quite a different proposition from what he thinks when it comes to "my policies."

The Springfield Republican is not risking much when it predicts that Foraker, La Follette and Bradley will be found on the stump speaking for Mr. Taft this fall. If they can't praise "my policies" they can point out how benevolent the party has been in providing big crops for the farmer.

A special election to vote upon a proposition to bond the county of Escambia for \$200,000 for the purpose of building a system of good roads, has been called by the board of county commissioners for Thursday, November 12. This action has been taken by the commissioners after an investigation covering a period of two weeks, and includes the cost per mile of the many miles of roadbed which are required to complete the county's system of roads.

Two new international bridges are to be built to connect this country with Mexico. One of these is to be constructed by the St. Louis, Brownsville & Mexico road across the Rio Grande at Brownsville. This will make direct connections with the two lines of the Mexican National entering Matamoras, just across the river from Brownsville. It is expected an immense railroad tonnage will pass over this bridge. Its completion will serve to develop a large section of new territory on both sides of the river, and both sections are believed to be exceedingly rich. The other bridge is to be built across the same river at Laredo, Tex., connecting that place with Nuevo Laredo, Mexico. This bridge will be built jointly by the national lines of Mexico and the G.O.P. lines. The government of Mexico has just approved the plans for this bridge. It will be of steel construction and will cost \$100,000 in gold.

A LITTLE TOO THICK.

The Jacksonville Metropolis of last Monday contains an article referring to the recent dastardly murder of W. H. Moreland at High Springs, which "spreads it on" entirely too thick. What brought about the article was a "threat" The Metropolis claims to have received from a member of what it terms "The Gang," as follows:

Metropolis—You had a good article about the High Springs fire. I am one of the gang that started it. Owners were against our gang when Billie shot that d— Moreland, and we want to put them out of business. They talk too d— much.

I am now pursuing Eaton, and will kill him if he goes back to High Springs. Yours truly,

MEMBER OF GANG.

P. S.—Drummers will have to carry Winchester in High Springs.

The Metropolis says the above was mailed in Jacksonville, and The Sun therefore doubts that it came from any citizen of High Springs, or any "Member of the Gang." It has the appearance of having come from another source.

The Metropolis says that "during recent years not less than twenty-three murders have been committed in High Springs." What does The Metropolis mean by "recent years?" There have not been twenty-three murders committed in High Springs and surrounding country during the writer's residence of thirty years in Alachua county, though God knows there has been a sufficient number to have resulted in several hangings had the fiends been apprehended and properly punished. But in some instances killings at High Springs have been declared justifiable by juries, and not all of them have been of the nature of the murder of Sellars and Moreland.

The good people of High Springs, and there are as good people there as are to be found anywhere, are put to sufficient shame for the crimes that are really committed there by the lawless element, without having the condition of affairs made to appear so much worse than it really is, and The Metropolis has exaggerated matters to entirely too great an extent. Just as dastardly murders have been committed in Jacksonville and Duval county and the perpetrators gone unapprehended as were ever committed in High Springs and Alachua county, and they will be committed in every State in the Union many years after the present generation has passed away.

The Sun is making no apology for the lawless element of High Springs. On the contrary, we deeply deplore that the town has been the scene of so much lawlessness and sincerely hope that the perpetrators of the foul murders and robberies committed there will be brought to justice and made to pay the penalty of the law.

MAIL ORDER COMPETITION.

It is safe to say that any merchant who goes energetically about it can win back a lot of the mail order trade of his community to his store.

The trouble is that so many merchants make the mistake of spending their time "knocking" mail order competition, instead of "boosting" their own business. They forget that "you can catch more flies with sugar."

Arguing that a catalogue house customer is not a good citizen, heaping abuse on the mail order houses, telling people that they get cheated most of the times they buy by mail, doesn't count for much in the long run.

The thing for the dealer in this community to do is to tell his trade what good merchandise they can buy in his store; how far a little money will go for reliable merchandise in his store; that their credit is good if he does a credit business; that they can see what they buy and pay for it when they get it, and not buy without seeing what they're getting and paying for it a week in advance; that they can get what they want when they want it, without waiting a week or two for it to come by mail or express.

The dealer who carries the best goods he can find, sells them at the lowest margin of profit that is reasonable, advertises effectively, and gives careful attention to the innumerable ways open to him of attracting and holding trade will have little to fear so far as mail order competition is concerned.

SOME HARD BLOWS.

The Sun's Washington correspondent comments upon Mr. Bryan's speech of acceptance as follows:

"Mr. Bryan dealt the Republican party some terrific blows on some very vulnerable spots. Mr. Bryan charges Secretary Taft with attempting to amend the Republican platform, which is an admission that the trust and not the people wrote it. It is well known that a motion was made in the Republican National Convention to provide for the physical valuation of railroads as a guide by which the amount of stocks and bonds should be issued by the roads. It is well known that the Republican National Convention voted down this proposition. A great hardship on the people of this country results from the fact that when a railroad is organized and its stock is sold, the money for that stock goes into the pockets of the organizers and promoters as pure graft, and then the crowd of grafters that organizes it issues bonds for building the road. So that all of the proceeds of the stock is practically stolen and the bonds go to the building of the road. By this wholesale stealing and grafting, which has characterized all the roads of the country, the people are compelled to pay rates for transportation high enough to pay the interest on the bonds issued and dividends on the stock, which is practically all water. If the railroads of this country had been built on honest principles, and if they were now being built on honest principles, the public could secure transportation at one-half of what they are now paying. Mr. Taft has seen the evil of this and has recently held a joint debate with his own platform. This only shows how completely the Republican party has surrendered to corporations and trusts. Mr. Bryan not only stands to correct this mighty evil, but his party is united at his back, whereas the Republican party is bitterly opposed to it as shown by their vote in the Chicago convention, which voted down the physical valuation proposition by 880 votes against 112, showing that more than 8 to 1 of the leaders of the Republican party are opposed to it."

Deafness Cannot Be Cured

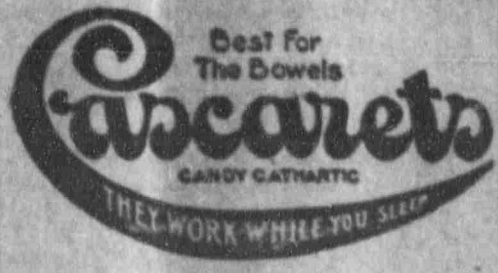

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO., Sold by druggists, 75c. Toledo, O. Take Hall's Family Pills for constipation.

"BLIND TIGER" AT CAPITOL

Negro Porter Arrested Charged With Sale of Liquor.

Atlanta, Aug. 18.—Saying he had been stabbed in a room in the capitol by Thomas Bray, a porter in the office of Comptroller General William A. Wright, Arthur Collins a negro, reported the matter to the police. Patrolmen Shaw and Knight went to the capitol from the corner of Decatur and Ivy streets, and, in addition to arresting Bray, turned up a blind tiger, which the latter is alleged to have operated in the building.

It seems that Bray and Collins, with another negro named Ed Thomas, who resides in the rear of 520 Peachtree street, had engaged for a considerable part of the afternoon in a game of craps on the lower floor of the capitol. Collins winning Bray's money. Hostilities broke out when the former bought a pint of liquor from the latter, and the two quarreled over the change from a bill. Bray made a lunge at Collins and stabbed him seriously with a long knife. Thomas is said to have interfered, and received a slash on the right hand. According to Bray, Thomas then knocked him down with a pair of knuckles. Bray was charged with violating the law on the illegal possession and sale of liquor, and two cases of disorderly conduct were entered against him, calling for a bond of \$100 in each case.

The presence of a tiger in the capitol is probably the first on record. The officers failed to search the building for a supply of the fluid.

Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes: "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by all druggists.

A DISAPPOINTMENT IN LOVE AFFAIR

Causes Miss Alice Walker of Call, Fla., to Commit Suicide.

RATTLER KILLS MR. WALKER

Was Bitten While Hunting Squirrel and Lived Only a Few Hours—Sea Island Cotton Crop a Failure, But Best Corn Crop for Years.

Call, Fla., Aug. 18.—Miss Alice Walker, aged 17 years, committed suicide here Saturday morning by shooting the top of her head off with a shot gun. Disappointment in love affairs is said to be the cause.

Frank Walker, a farmer of this section, while out squirrel hunting last Saturday was bitten by a large rattlesnake and died Sunday night at 12:30 o'clock. All that could be done gave the suffering man no relief.

The Sea Island cotton crop will be almost a failure in this section. The fruit is falling off in showers, half-grown bolls drying up and falling off. Extremely hot weather is supposed to be the cause of such falling off.

The corn crop is the largest for years. Some farmers say they have plenty to do them two years.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Women Refuse to Pay Fine.

Athens, Ga., Aug. 18.—It will be remembered that some time since Professor Bailey was publicly whipped by ten ladies of the town of Canon. She brought injunction proceedings to restrain the town from collecting this fine. The case has been heard by Judge Brand in this city and the injunction was ordered to hold until a jury could pass upon the merits of the case.

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by all druggists.

Three of the party were rescued, but Dutton and Miss Nickerson were swept into the Delaware bay.

UGLY CHARGE AGAINST MAN.

The Crime, It Is Said, Was Committed on Public Road.

Summerville, Ga., Aug. 18.—Late Saturday afternoon R. L. Williams, white, committed rape on the little 8-year-old daughter of Mrs. Hammon. Williams was bringing the child home in a buggy from a picnic out in the country.

The crime was committed it is said, on the main public road between Summerville and Trion. They got home about night and the little girl told it as soon as she got in her home, but neighbors would not let it be known until Sunday morning. Williams was arrested and put in jail here.

For fear of trouble, the sheriff started for Rome with him through the country about 12 o'clock.

Williams says he knows nothing about it as he was drunk. Dr. Bryant, who attended the child says she is in a bad condition, and sent her to Rome for special treatment.

Williams and the child's mother are next-door neighbors in Summerville. Williams is about 50 years old, and has a family and grown daughters. He runs a bottling works in this place. The Hansons are good folks. Williams has a fair reputation.

MINING DISTRICT IS QUIET.

No Trouble in Alabama Mining Region on Sunday.

Birmingham, Ala., Aug. 18.—Sunday appeared to have passed quietly in the mining sections of the Birmingham district. The house of W. B. Walton was burned at Ensley Sunday under suspicious circumstances while the family was at church. Walton was a guard at one of the mines and was in the trouble at Jefferson last month when so much shooting was done.

Reports received at the sheriff's office at military headquarters are to the effect that there were no disturbances of any kind during Sunday. Military headquarters will probably be moved into the field instead of being maintained at a local hotel, as has been done since the men were first put on duty.

HE WAS TRAPPED.

Man Who Wrote Threatening Letter Taken by Detectives.

Chicago, Aug. 18.—Vincenzo Crampa, a Sicilian, believed to be the author of threatening letters demanding \$1,000 from V. Benedetto, a wealthy Italian grocer, has been arrested by detectives, in a clump of bushes, where he had directed Benedetto to leave a box of money.

The letters received by Benedetto purported to be from the "black hand" society. Crampa was trapped by a ruse arranged by the police and Benedetto by which Benedetto was to wave a red handkerchief when he appeared at the secluded spot where he was to deliver the money. At the appointed time two detectives took the place of the Italian grocer and arrested the Sicilian.

Express Agent Arrested.

Nashville, Tenn., Aug. 17.—Burt Simms, Southern Express agent, is under arrest at Murfreesboro, Tenn., a dry town, on a city warrant charging him with receiving and delivering packages of whisky shipped into Murfreesboro contrary to ordinances the city board adopted about a year ago. The arrest of Mr. Simms caused considerable excitement and surprise, as it has generally been supposed that the law passed by the city board was void.

May Protest Election.

Manilla, Aug. 17.—The local police have discovered that copies of the ballots used in the recent municipal election in this city were stolen prior to the election and used in an illegal manner at the polls. The extent of the fraud is unknown as yet but it is thought that the ballots were used chiefly to make certain of the manner in which the supporters of certain candidates voted. It is expected that the election will be contested.

Renounces Citizenship: Ends Affair.

Washington, Aug. 17.—Consul General Ernest L. Harris, of Smyrna, has communicated with the state department concerning the settlement of an uprising at Nikaria, in which sixty naturalized American citizens were implicated. The Americans concerned renounced United States citizenship and thus America's interest in the affair comes to an end.

Emperor Extends Invitation to Wood.

Berlin, Aug. 17.—Emperor William has invited Major General Leonard Wood, U. S. A., to be his guest at the imperial maneuvers to be held in Alsace-Lorraine in the month of September. This invitation reached General Wood in Switzerland.

TOOK WARRANT AND ESCAPED.

Alabama Man Ran a Winning Race for Georgia Soil.

Columbus, Aug. 17.—When Officer Kennington, of Girard, Ala., went to arrest Will Abney, a young man of that city, on a state charge Abney asked him for his authority.

The officer pulled out an imposing looking warrant and began to read, when Abney snatched it from his hand and made a break for liberty, succeeding in reaching the Georgia side after a spectacular race, and eventually made his escape.

Man Hooted the Idea.

New York Aug. 17.—Although Conrad teigruber laughed at the Christ hospital physicians in Jersey City who said that he would die in twenty-four hours from the effects of a bite from a dog, the man died. Steingruber said he was a disbeliever in hydrophobia and that he would be around again in a few days. He rapidly grew worse, and until he died his suffering was intense.

Hay Fever and Summer Colds.

Victims of hay fever will experience great benefit by taking Foley's Honey and Tar, as it stops difficult breathing immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. J. W. McCollum & Co.

Goes into Hands of Receiver.

Seranton, Pa., Aug. 18.—The Pennsylvania Coal and Coke Company, one of the biggest mining concerns in the bituminous fields of western Pennsylvania, has gone into the hands of a receiver on application of the Seranton Trust Company, the trustee for the consolidated bond holders.

THE REAL TEST

Of Herpicide Is in Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vipers may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00.

WILLIAMS MET AWFUL DEATH.

Fell on Circular Saw and Body was Cut Entirely in Two.

Columbus, Ga., Aug. 17.—R. M. Williams, aged 30 years, met a horrible death at C. C. Jordan's saw mill, near Crawford, Ala.

Williams was setting head blocks when the lever broke and he fell on the saw with the result that his body was cut entirely in two by the rapidly running saw. A wife and four little girls survive him.

Life Preserver Invented by Atlantan.

Atlanta, Aug. 17.—L. D. McDonald has returned to Atlanta from a visit to the city of Wilmington, N. C., where he had been on a visit to the seashore for the purpose of giving his new life preserver a thorough trial. The life preserver which was invented and patented by Mr. McDonald is something new, and decidedly unique. Mr. McDonald will either manufacture the preservers or dispose of the patent to some manufacturer.

Handcuffs Placed on Bride and Groom.

Pittsburg, Aug. 17.—Handcuffed together, Edward Saunders, of Rochester, N. Y., and his bride, who was Miss Maud Higgins of Pittsburg, were forced to stand in an ash wagon while the were hauled through the streets by joking friends with numerous placards on the sides of the wagon. It was midnight when the handcuffs were unlocked. The wedding supper was cold when the sat down to it.

What a New Jersey Editor Says.

M. T. Lynch, editor of The Phillipsburg (N. J.) Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." J. W. McCollum & Co.

Contestants For America's Cup.

Chicago, Aug. 17.—The largest and classiest fleet of 21-foot cabin yachts that has yet sailed for the Liptrophy started in the initial race of the 1908 series Saturday. Eleven of the twelve entrants were on hand for the contest, although up to the last few hours it was doubtful if the little Shamrock would be taken across the starting line.

No Funds To Pay Them.

Atlanta, Aug. 17.—At the annual meeting of the stockholders and directors of Central of Georgia Railway Company, held in the office of President J. T. Hanson in Atlanta, it was decided to pass the dividends on all three classes of income bonds this year because the company has no funds with which to pay them.

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

SHOOTING THE SUN.

Best Way of Locating a Ship's Position at Sea.

The average transatlantic traveler pays very little interest in the navigation of the vessel beyond watching the ship's officers, sextant in hand, making observations, says a writer in Travel Magazine. Very few have any idea of the process by means of which a modern navigator is enabled to accurately place the ship's position at a given time on the chart. Out of a number of land a ship's geographical position is determined either by keeping a careful record of the course steered, the distance run, known as dead reckoning, or by the combined use of a chronometer and sextant—that is, by observation of the heavenly bodies. The operation of finding the latitude and longitude of observation can be performed in a number of ways, of which the simplest and most convenient is by measuring the altitude of the sun above the horizon at noon, as is spoken of at sea as "shooting the sun." An arithmetical computation by aid of logarithms is thus quickly made which shows exactly how far the ship is north or south of the equator, in other words, the latitude. Finding the longitude, however, is a somewhat longer process. An observation is made either in the forenoon or afternoon, the chronometer time of the sun contact of the sun's image being noted. A calculation is then made which gives the exact time at the spot where the ship happens to be, and, as a chronometer carried aboard shows exact time at Greenwich, the prime meridian of longitude, the difference between the two expresses in hours and minutes (easily convertible into degrees and miles) the distance east or west of Greenwich. Having thus, roughly speaking, found latitude and longitude, a dot placed on the chart at the exact point where the lines of latitude and longitude intersect denotes the ship's position.

A MAN'S HAT.

Is It Always Regarded as a Fit Subject For Jokes?

"Wonder why it is," says a young man who spends most of his leisure time studying human nature at a famous street corner, "that a man's hat is always regarded as a fit subject for jokes? Anything that happens to shoes is a serious matter, and, although his vest, especially if it is out of the usual in design or color, is sometimes made the subject of pointed remarks, disaster to any other garment regarded as a matter of sympathy. But if he goes to church and puts on his hat at the end of his pew, and somebody kicks a dent in it, he knocks it five feet down the aisle. If he places it carefully beside him in a lecture room or theater and a occupied young woman comes in and sits down on it people laugh with seeming to feel the slightest sympathy for him or his sky piece. A man chasing his hat through the street on a windy day will always attract a grinning, unsympathetic crowd ready to lay bets on the distance the hat will travel before he catches up on the amount of damage it will sustain before it is finally recovered. So irritated does the owner become when he finds his vicious dabs grabs at it greeted with ironical applause that he generally forgets to ask the man who stops it by stamping on it and hands it back. I have seen Joe Miller perpetrated jokes about the hat, but the heavy felted, cocked hats of Miller's time did lend themselves readily to joking poses, for when those old fashioned pieces were blown off they dropped to the ground and stayed there, mamma, a stovepipe or even a derby run and fly by turns from Broadway to the postoffice and attract as much attention as a runaway team."—Louis Globe-Democrat.

Soldiers in Battle.

Those who have taken part in a battle have confessed that were it not for shouting and the noise they would have been nervous and run away. There is always an interval of cowardice in a soldier, but it is quickly overcome, and he fights grimly, unmindful of impending death. Bands were, of course, ordered to raise the spirits of soldiers. Martial music, whether from drum or the bugle, has done a great deal in saving campaigns. No man can fight in a cold blooded manner and in the excitement of a general engagement the most nervous of men recover wonderfully.

Ten Years in Bed.

For ten years I was confined to my bed with disease of my kidneys," says R. A. Gray, J. P. of Oakville, N. S. "It was so severe that I could move part of the time. I consulted the very best medical skill available, but could get no relief until my Kidney Cure was recommended to me. It has been a Godsend to me." I. W. McCollum & Co.

DO YOU WANT TO

MAKE OR LOSE MONEY

THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but its not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.

IN THE BANKING BUSINESS

Just like in every other line, if a success is made of the business, it must be run on business principles and every customer must be pleased. With us, pleasing our customers is our "long suit." While we are in business to make dividends for our stockholders, we never lose sight of the fact that our success depends on the patronage we receive at the hands of the public; to increase this patronage we accord our patrons fair treatment, and make them (of their own accord) send us customers, knowing their friends will receive a fair deal at this Bank.
